The Israel Philharmonic Orchestra (IPO)’s services to the Israeli army continue up to the present day, performing for Israeli soldiers at their army outposts. The Palestinian boycott campaign PACBI have highlighted the IPO’s ‘complicity in whitewashing Israel’s persistent violations of international law and human rights’.

Israel is militarily occupying the West Bank, Jerusalem and Gaza. In total defiance of international law, they have used this military control to confiscate Palestinian land and settle on it. Now the Israeli Prime Minister is trying to insist this stolen land will remain part of Israel and has just agreed to building more houses for Israelis on Palestinian territory.

Over 60 years of United Nations resolutions have not resulted in any progress. World governments have done nothing to end this occupation. So the Palestinians have issued a call to support boycott, divestment and sanctions on Israel. **Will you listen to their call?**

Please support international law, peace and justice by:

- Boycotting the performance. If you’ve already bought a ticket – tear it up.
- Write to the Proms and express your opposition to the performance: proms@bbc.co.uk
- Tweet the Proms: @bbcproms
